MEMORANDUM FOR:

FROM:  Office of Legislative Counsel

DATE: 11 February 1965

1. Senator Fulbright has again by letter asked the DCI to comment on a resolution dealing with anti-semitism in the Soviet Union. While we are not facing a deadline, we would like to get our comments on the way as soon as possible.

2. Again, I think our answer would be restricted to what we know about Soviet persecution rather than expressing a view of the resolution as such, which may require some updating of our previous letter to Senator Fulbright last year.

3. Attached is a copy of Fulbright's letter, last year's response to Fulbright, the resolution, and extracts from the record when the resolution was introduced.
